

# Heathrow Tunnels

## Capital | Thermal

The refurbishment of the main and cargo access tunnels to Heathrow airport. The project involved works on main access Tunnel into and out of Heathrow Terminals 1, 2 and 3.

Capital Thermal Services provided the Thermal Insulation, Trace Heating, Aluminium Cladding.

This project was the first that Capital Thermal had undertaken with BAM Nuttall and added to the established position held at Heathrow Airport.

Our Team worked various shift patterns around the closures to ensure Safe access was achieved.
