

60 London Wall

Capital | Thermal

60 London Wall is a substantial mixed use commercial and retail development located in the City of London and spans 43,872sm. The building provides efficient high quality, grade A specified office accommodation with retail at ground floor level.

Providing the Fire Rated Insulation services for the project, it was important for us at Capital Thermal to showcase workmanship that stood up to increased scrutiny in light of recent industry changes.

We offered full product traceability and a robust QA system to deliver an important project to the highest standards.

Overall services provided on this project include:

Fire Rated
Insulation
