## Capital | Thermal

Greycoat and Morgan Stanley's 232,000 sq ft former Royal Bank of Scotland office comprises 222,087 sq ft of Grade A office and ancillary accommodation arranged over two basements, ground and eight upper floors.

Capital Thermal Services provided the shell and core works and fit out on levels 6, 7 and 8 as well as exposed services with a professional cladding finish.

All works completed within a nine-month programme timeline.

The building is targeting BREEAM 'Excellent'.

Overall services provided on this project include:

Thermal  
Insulation

Trace  
Heating

Cladding  
& Jackets
