

Roehampton University

Capital | Thermal

Replacing the previous University Library building, The Harvey Building is the new home for the Department of Media, Culture and Languages at the Digby Stewart Campus.

Providing the Thermal Insulation, Trace Heating and Acoustic insulation on the project, the building will house state-of-the-art film, television, photographic and sound studios, editing suites, flexible creative space and a 90-seat cinema. Additional acoustic treatment was required on external ventilation systems owing to the noise sensitivity of the Cinema within the building.

Having worked with the project team on previous phases at the university, It was important for us to maintain the standards the client and the students expect.

Overall services provided on this project include:

Thermal
Insulation

Trace
Heating

Acoustic
Insulation

WHAT

Multimedia Facility

WHERE

South London

COMPLETED

Dec 2019

PROJECT VALUE

£60,000
