

# Wardian

## Capital | Thermal

Wardian London stands as a striking residential development, featuring two iconic towers of 55 and 50 storeys. Home to 767 luxury residences, including suites, apartments, and penthouses, the project blends modern elegance with high-performance design.

Partnering with Designer Group, with Ballymore as the main contractor, Capital Thermal provided Acoustic Insulation, Thermal Insulation, Trace Heating, and Valve Jackets—ensuring superior comfort, energy efficiency, and sound control in this landmark development.

Overall services provided on this project include:

Thermal  
Insulation

Valve  
Jackets

Trace  
Heating
